Strawberry Crop to be Very Light

Picking and marketing of strawberries started this week in Marshall County.

This year's acreage is extremely low, according to County Agent Homer Miller, totalling only 50 acres or less. In 1930, almost 3,000 acres were planted in strawberries in this county.

Miller said the big drop in acreage was due to the shortage and high cost of labor. Last year's drought also had some effect on this year's strawberry crop.

The strawberry yield this year will be fair, Miller said, with some fields producing 200 or more crates per acre.

Miller also reported that wild-fire and blue mold have been found in tobacco plant beds. It is too late to combat wild-fire, but fumigate or dithane should be used on plant beds to get rid of blue mold.

This year's tobacco acreage also will be extremely low, Miller said, with less than 1,000 acres planted in all types of tobacco. During peak years, between 4,000 and 5,000 acres of tobacco are planted in this county.

The tobacco acreage drop also is due to the labor problem in this section.

Continued rainfall has delayed the entire planting season this year, Miller said.

'Herb' Hurley Announces As Candidate for Sheriff

Herbert T. "Herb" Hurley would like to bring to your attention his official announcement as candidate for Sheriff of Marshall County in the Democratic primary to be held August 1, 1953.

May I state some of my past history to those of you with whom I am not acquainted. I was born at Calvert City, Kentucky on July 2, 1921, son of Harry D. and Fannie Miller Hurley.

I graduated from Calvert City High School in 1940, enrolled in Murray State Teachers College. After attending Murray State College for two years I was called into military service.

After a period of time in the Marine Corps I continued my college work and graduated from Murray State College with a B. S. degree. The following year I was principal of Marion High School, Marion, Arkansas and for one year I was principal of Calvert City High School.

I then entered the contracting business with my father, H. D. Hurley and my brother, J. E. "Buck" Hurley. We continued in the contracting business for a period of four years, at which time I purchased the Benton Sport Center and operated this business under the name of Hurley Sport Center for a period of three years. I have been employed for the past two years by the Tennessee Valley Authority.

During the time I was attending school at Calvert City and Murray I was very active in sports, especially basketball. In the years 1939 and 1940 I was selected on the All District and All Regional teams. While engaged in the sport while attending

Calvert City High School I was designated as a member of the All American Team in basketball. After leaving college I was very active in this sport by participating on different independent teams.

I am a member of First Methodist church, Benton, Kentucky and reside in Benton.

I am married to the former John Nell Shemwell, and have two daughters.

I have thorough knowledge of the duties I am to perform if I am elected sheriff of Marshall County. I feel that I am qualified to administer these duties efficiently, and am physically and mentally able to do so.

I have had the privilege of teaching these duties as well as the duties of each judicial branch of our county government in our public schools, therefore, giving me full knowledge of what is to be performed.

Having been born and reared in Marshall County, realizing the county has been clean and comparatively free of crime for the past several years, I realize that the people desire to keep the county free, as near as possible, of law violations since this is one of the duties of the sheriff's office of Marshall County, it will be my purpose to keep it as clean and free of crime as possible. If elected to the office of Sheriff it will be my purpose to cooperate with other officials so that Marshall County may continue to be a good county in which to reside.

I will not be dictated to by any person or any group of persons and I will make every effort to be the kind of Sheriff that when my term of office ends, those who voted for me will feel that if they had it to do over, they would make the same choice.

I anticipate making a very active campaign in this election and will try to see each and every voter of the county, but I realize that I will possibly miss a few so I, at this time, solicit the vote and influence of all.

Respectfully,
HERBERT T. (HERB) HURLEY

Many Former Residents To Return 'Home'

Big Singing Day, Marshall County's day of days, will be held in Benton on May 24. It will be the 99th annual singing.

The event, known formally as the Old Southern Harmony Singing, was originated in 1854 by J. R. Lemon, an early Benton newspaper publisher.

The first singings were held in the old Methodist church here but as the event grew in size it was moved to the courthouse. Four of the singings have been held outside of Benton — at Briensburg, Hardin, Paducah and Oak Level.

The event was held in Paducah in 1915 because the Marshall County courthouse had been destroyed by fire and was being rebuilt.

Big Singing Day each year attracts thousands of visitors to Benton and Marshall County. It has become a sort of homecoming day for many former Marshall County residents who return each year to visit with relatives and friends.

Aside from the huge crowds that gather in Benton, the Old Southern Harmony Singing is a simple and reverent event. The singing starts at 10 a. m. in the courthouse, adjourns for lunch and is resumed at 1:30.

Such old-time tunes as "Hallelujah" and "Amazing Grace" from the Old Southern Harmony song books are sung. These song books have become increasingly rare and few of the original printings are available.

A practice singing was held Tuesday night of this week at the home of R. L. Nichols, 21 Hamlet, R. L. Nichols, C. I. Nichols, Boone Hill and Robert Mullins long have been active song leaders for the occasion.

Another practice session will be held on Tuesday night, May 19, at the home of Mr. and Mrs. H. H. Lovett Sr. in Benton. All singers are invited to attend.

'Tot' Jackson Formally Asks County Clerk Post

I very respectfully submit this, my formal announcement, acquainting you with my candidacy for the office of County Court Clerk, subject to the action of the Democratic primary election on August 1, 1953.

I was born in this county, twenty-nine years ago, the son of Mr. and Mrs. Dewey B. Jackson. I have been a lifelong citizen of Marshall County, except for the period when my services were required in our armed services, and even then I was always thinking of Marshall County.

My educational advantages include the grade and high school. I graduated from Benton High School in the class of 1942. Also, while in the armed services, before going overseas, I was fortunate enough — to secure some college work and except for nine months spent in the Infantry, I was engaged in clerical work the remainder of my time in service.

During my school years I worked with my parents in the grocery store in my spare time. After being discharged from the armed service in 1946, I, with my brother, operated a grocery store for a short time. After that I was engaged in farming for three years, and then in 1949, I entered the campaign for County Court Clerk. As most of you already know, I was defeated by a small margin by our present County Court Clerk, Mr. Mark Clayton, also a veteran, who was running for reelection.

After the election, I, with my father, operated a grocery store in Benton until December of that year, when I was employed by the Peel and Holland Insurance Agency as an insurance solicitor. I have been so employed since that date, until resigning April 30, this year.

I now live with my wife, the former Hilda McGregor, and two children, Eddie, age 5 and Yvonne, age 1, on Route 2 about one mile West of Benton, on the Benton-Oak Level road.

I am well aware that the position to which I aspire carries many duties and responsibilities, involving those of clerk of the county court, fiscal and probate affairs, recorder, issuance of various statutory license, and vital records of our county, as well as custodian and keeper of all such records.

My native ability and heritage of energy and strength of character, prompt me to feel

that my ambition to faithfully and honorably serve our people in this position is well founded. My education and varied experiences lead me to also feel adequately qualified to activate that high ambition.

In closing, I want to again thank the citizens and voters for the splendid vote and support you gave me four years ago, and also for the encouragement I have received since that time. I beg that you, and all other voters and citizens, give me your kindly consideration, vote and loyal influence this time and help me acquire the position that is one of my greatest desires. I know that no one can ever be more appreciative and humbly thankful for your help than I shall be.

I sincerely hope to see every one personally during the campaign, but due to the hours most of you are working, I know that this will be impossible in so short a time. To those I fail to see, consider this a personal appeal for your vote and influence.

If I am nominated and elected, I know I shall never cease you to feel sorry that you helped me.

Sincerely yours,
CHARLES E. CLAY JACKSON

Such is the conclusion from tests by doctors in which Lydia E. Pinkham's Vegetable Compound stopped or gave amazing relief of such distress in 3 out of 4 of the cases... even on the very first and worst day of the period! Yes! Medical evidence proves Lydia Pinkham's smooth action in action. It exerts a remarkably calming effect on the uterus—without the use of pain-deadening drugs! The effectiveness of Lydia Pinkham's needs no proof to the millions of women and girls whom it has benefited. But how about you? Do you know what it may do for you? Take Lydia Pinkham's! See if you don't get the same relief from cramps and weakness... feel better both before and during your period! Get either Lydia Pinkham's Compound, or new, improved Tablets, with added iron! Lydia Pinkham's is wonderful for "hot flashes" and other functional distresses of the "change of life," too!

TYPICAL FARM PLANNING SCENE — The Soil Conservation Service technician goes over the farm field by field and acre by acre and helps the farmer plan the best use and treatment of the land.

By HERBERT ANDERSON
J. L. McKeeley, south of Fairdeal, has received his complete soil and water conservation farm plan.

This kind of farm plan is based on the capability of the land. The correct treatment for controlling erosion on each acre is in the plan.

H. E. Morgan, Benton, has received his copy of the amended conservation farm plan for his farm. The amendment was made necessary by the purchase of one land.

Loyd Collie went to work April 27th for the Soil Conservation Service. He is approving and laying out terraces, ponds, diversion, ditches, drainage ditches, sod waterways, contour lines, and land clearing practices. These are the permanent type practices which the Production and Marketing Administration gives financial help in establishing.

Charlie Walters, near New Harmony, and Otis Wyatt, east of Briensburg, became co-operators with the Marshall County Soil Conservation District last month.

Delton Newton, east of Benton, plans to dig a three hundred foot drainage ditch this

summer. I helped him make a survey to determine the depth, size, grade, and cubic yards of earth in the proposed ditch.

Wesley Stone, one mile west of Benton, has cleared about two acres of land this spring. A bulldozer was used to pile the trees which were of no value. Permanent pasture will now be the new land use.

Do you know this about telephone taxes?
You may not realize how large a part of the money paid by telephone users goes to taxes. Including the federal excise tax, a total of 29% out of every dollar received from Southern Bell customers last year was paid out in taxes to federal, state and local governments. To put it another way, the average amount of taxes was \$2.91 a month per telephone.
Telephone taxes are necessary to the support of government, but they do mount up. Higher taxes of course have effect on the price you pay for telephone service.
The next time you pay your telephone bill, remember that a good part of it is taxes for government and national defense.

Celebrate Golden Wedding Day

George L. Peck, Wife Married for 50 Years

Mr. and Mrs. George Lee Peck, of Route 6 Benton, celebrated their golden wedding anniversary on Sunday May 10, at their home.

Live-time residents of Marshall county, Mr. and Mrs. Peck, nee Dora Byerly, were married May 10, 1903, at Scale, Ky.

Louisville Invites Artist Gough To Make Home There

Galen (Hobson) Gough, Benton artist, has been offered an open door to pursue his career in Louisville. The invitation was carried in a letter from Kenneth P. Vinson, executive vice-president of the Louisville Chamber of Commerce.

Gough, who for many years held unchallenged title as the world's strongest man, started painting five years ago as a hobby. His works have since gained nationwide recognition. He returned to Benton from Los Angeles last fall so that acclaim given to his work would also reflect credit simultaneously on his homeland.

"Your decision to return to Kentucky and devote one phase of your work to painting and publicizing the State's historical and landscape scenes should be warmly welcomed by all Kentuckians," Vinson said. "In our constant effort to improve the community in a business and industrial manner we are not unmindful of the great contributions that need to be made along cultural lines as well."

"If you should find it easier to pursue this work from a metropolitan area please know that we would welcome you as a new resident of Louisville."

Mr. and Mrs. Lura Green of Detroit have been visiting his sons, Marshall and Milburn, and their families. While here they went fishing and took their catch home with them and had a fish dinner the following Sunday for their friends in Michigan.

Mrs. Sid Walker of Route 6 was a shopper in town Monday.

Seaman Latham Serving Aboard Escort Destroyer

Harmon Latham, seaman, U. S. Navy, is serving aboard the escort destroyer USS Epperson. He is the son of Mr. and Mrs. Earle Latham of Kirksey Route 1.

In Korean waters, the Epperson has screened aircraft carriers from possible submarine attack while their planes harassed the enemy. She also has engaged in shore bombardment and has protected Formosa from possible Communist attack.

The ship is a unit of Escort Destroyer Division 12 and is the flagship of the division commander.

Latham entered the Navy in October 1951.

The Courier wants to print the pictures of every service man in Marshall County. Whether your son is overseas or has just gone into service, let's tell the public about him.

**Take the wheel
and a new world is yours**

Two things stand out above all others in this Golden Anniversary ROADMASTER. It is the most beautiful Buick Riviera ever built. It is the most brilliant Buick performer in fifty great years.

The first of these is an obvious truth that you learn at initial sight of this automobile's sweeping lines, its gracious styling, its stunning interior fashioning.

The second is one you discover when motion begins and the wonderful new experience unfolds.

You soar from standstill to legal speed as you never have before—for Twin-Turbine Dynaflo gives you getaway with a combined swiftness, silence and smoothness no other car in the world can equal.

You command the highest, the silkiest, the most instantly responsive power in all Buick history—from the world's newest and most advanced V8 engine—the first Fireball V8.

You ride with the gentle, constantly level cushioning of coil springing at all four wheels. You guide your two-ton automobile with the exquisite ease of Power Steering. You slow or halt with the velvety control of still finer braking—plus the extra comfort of Power Brakes* if you wish.

Surely, this rich new world of motoring magnificence is one you should explore—if only to know that it's real, and more easily reachable than you may think.

We'll be happy to seat you at the wheel of this superb new ROADMASTER—and let your emotions and good sense judge its greatness. Won't you visit us this week?

Eryant is Married

Byrant and Eryant were charged as a first sergeant. He was stationed at Camp Rucker, Ala. He is a graduate of Minneapolis Business College and now is employed in the accounting department of the Minneapolis Gas Company. End Of The World

Lessons for May 17, 1953

THE first part of the New Testament to be put into writing was not any one of the gospels; it was an epistle. Which one, is not absolutely certain; but it may very well have been the pair of letters Paul wrote to the Thessalonians. There is much too much in them for all of it to be put into one Sunday school lesson. One thing certainly seems very modern: the Thessalonians, and perhaps Paul too, were under the impression that their times were the last times. The end of the world seemed to be right around the corner. That was nearly 2,000 years ago. But what with the A-bomb and now the H-bomb, it looks as if this ancient fear might not be off-center at all nowadays. It is worth while to think—What if this year 1953 really is the last chapter in history?

God Has His Plans One thing does seem clear from the Bible, whatever else people may quarrel about: The end of the world will be brought about by God, not man. It is quite possible, as the most distinguished scientists tell us, that any one H-bomb will totally and instantly destroy life in a circle of 300 square miles. But this earth is a large one, and there aren't enough H-bombs to carpet the whole place. The civilized nations so-called, may blow each other off the map; but there will be a lot of uncivilized ones left that don't have money for H-bombs and couldn't even spell the word. "Civilization as we know it" can be destroyed by man, but not the heavens and the earth. This is not to call the H-bomb a trifle; its use would be the most colossal evil ever devised at one stroke by mankind. But while the use of it might well be the last chapter for all readers of this paper, there are people who can't read (in Patagonia for instance) who would scarcely know the thing had been dropped. When God is ready to bring the whole story of man to an end, he will do it. Men will not.

Suppose This Is It? St. Francis of Assisi, such a universal Christian that both the Roman Catholic church and the Salvation Army have claimed him for their own, was once asked, while he was hoeing in the garden, "What would you do if you knew the world was coming to an end this afternoon?" His answer was: "I would go on and finish this hoeing." Paul had to deal with this problem in the Thessalonian church. His first letter to them got them to thinking the end of all things must be right around the corner. So a good many of them decided there wasn't any use in working any more. They quit their jobs, they sat around or visited one another's homes, and they stayed on them. "When will it be?" Paul's advice (besides telling them the end was not as near as they thought) was to get jobs and stay on them. It was to these people that he made his famous remark, "If any one will not work, let him not eat." (II Thess. 3:10.) Suppose the end of all things is really near? Suppose Christ came in glory to your town before Sunday? Which would be better to be found just sitting around, or steadily doing whatever duty might be yours at the time?

The End of the World After all, what does the end of the world mean, practically? It means that you and the world part company; it vanishes before your eyes. Whatever world you exist in from that moment on, it will not be this one. Now it makes small difference whether the world folds up and leaves you, or whether you fold up and leave the world. One thing is sure: whichever way it is, you and this world, this world of day and night, of sin and suffering and saintliness, this world of animals, vegetables and minerals—you and this world are going to part company, and you are going to live long enough to see that day. The big question is not the nearness or the farness of that day. The question is: What are you going to put into the time between now and then? If you will look around you, you will see many evidences that those who went before you made wise plans and did good deeds not only for their own time but for yours as well.
